## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 21-33 are rejected under 35 U.S.C. 102(b) as being anticipated by US Design patent D270905 issued to Nespor. Nespor discloses a device for deploying and managing a movable weapon, comprising a vehicle in the form of a tow truck body, a winch system connected to a motor, a plurality of flexible winch lines, hooks attached to the winch lines and a plurality of pulleys.

3. The examiner would like to point out that applicant's claims appear fairly broad in that the subject matter can be anticipated by just about any type of tow-truck or crane-like device. Additionally, various "means" limitations can have the same elements that are included in each means statement. Applicant should amend the claims to highlight the crane's ability to accommodate mortars.
